MEMORANDUM FOR: Special Assistant, NPIC

SUBJECT : Full-time Instructor at Offutt Air Force Base,
DSIATP

25X1 1. As a result of discussions by Chief, Training Branch with
25X1 [redacted] at Offutt Air Force Base and personnel of the Armed
Forces Air Intelligence Training Center of Lowry Air Force Base, Mr.
[redacted] reached the conclusion that he would recommend that a GS-12
from the Center be assigned to the 3428th Technical Training Squadron.
This recommendation differs from those previously forwarded which had
suggested that personnel in the range of GS-11 through 13 be considered.

2. A check of Personnel Branch records revealed that IEG has
twenty-three GS-12 imagery interpreters. The interpreters identified
are:

25X1 3. The initial discussions with Offutt revealed a stated need
in the field of atomic energy. The only interpreter of the "IEG
twenty-three" currently interpreting in this specialty area is Mr.
[redacted] a relative neophyte to the field of imagery interpretation
(Roger was previously a graphics analyst). [redacted] was a spe-
cialist in the field at one time but has, in all probability, not
maintained his expertise.

4. It is the opinion of Training Branch that the individual
doing the instruction at Offutt need not be an expert in the field
of Atomic Energy in order to teach this bloc of instruction. More
important criteria for selection of this instructor is that the
